## THEY WILL ACT

The Democratic Committee to Consider Clark's Conduct.

After Giving His Word to Withdraw He Concludes to Run.

THE RECORD AGAINST HIM IN THE COURT OF CRIMINAL CORRECTION.

He Was Charged With Embezzling Money Belonging to a Poor Old Woman, Tried and Convicted—His Nomination Secured Through the Duplicity of Ed Butler—His Lately Made Record for Deceit.

Thad C. Harris, the member of the Democratic Central Committee from the Twenty-eighth Ward, this morning brought to the Post-Dispatch office the following official announcement:

Dr. Frank J. Lutz, Chairman of the City Democratic Central Committee, desires the members to promptly accept his resignation as chairman of the business committee, as it is important that he should not be brought before them, as well as the election of officers.

There will be only one business matter before this meeting of the Central Committee, and this will be introduced by an allusion to the following entry on page 70 of the docket in the Court of Criminal Correction.

AUGUST ISSUES, 1884.

No. 149. The State of Missouri, Charged vs. Ben F. Clark, with Affidavit filed. Warrant issued to Sheriff Warren, returned executed. Set for Aug. 27, 1884.

Mr. Frank J. Lutz, the Circuit Attorney, tried the case, but was unable to get a conviction.

JUDGE VALLANT AND CLARK.

From the Post-Dispatch, Thursday night, to which Mr. Clark alluded, Judge Vallant had been selected by him as his adviser and vicar, and became of the Judge's confidants, one of the strongest and most unsalable candidates on the ticket. After this meeting Judge Vallant came to the Post-Dispatch office and told Mr. Clark he had agreed to write his resignation and have it in his hands at 11 o'clock Friday. At that hour Mr. Clark called at Judge Vallant's office in Leavenworth, and the Circuit Attorney and Post-Dispatch representative was asked to come in.

The paper has been assured by the editors of the "Post-Dispatch" that Judge Vallant, "that the paper has no desire to criticize its private citizens, and Mr. Clark tells me that he has fully made up his mind and will write his resignation this afternoon."

The Judge who convicted him and punished him is Henry D. Laughlin. The fine assessed against him has never been paid, and the prosecution against Clark would still be pending had not Mayor Noonan, his friend, arbitrarily diverted the cause of justice by ordering the clerks of the court to drop the proceeding from their dockets, when he followed Judge Laughlin on the bench.

WILL REPUDIATE CLARK.

"At to-night's meeting of the Central Committee," said Committeeman Harris to-day, "a resolution will be introduced censuring Clark for refusing to withdraw after he had promised to do. The committee cannot take him off the ticket, as some people suppose. The convention is supreme, and the nominations are in no way under the committee's control; if the convention makes them. All the power we have with regard to nominations is to fill a vacancy. We thought we would have this to do to-night, as Clark gave everybody to understand yesterday that he intended to withdraw. Now, he says that he intends to stick, influenced, I hear, by the promise of John O'Neill's support and a check for \$10,000, and the committee can only take some action that will show what the party thinks of Clark and protect the rest of the candidates on the ticket. Those with whom I have talked think that the resolution will accomplish everything possible to us, and we will have to depend on the voters of the city for the rest."

HOW BUTLER NOMINATED CLARK.

Mr. Clark stands before Recorder of Voters James L. Carlisle, by the certificate of Mrs. E. Barrett, Secretary of the Democratic City Convention, as the nominee of that convention for the office of Circuit Attorney. In fact he is, by right he is not. There were 195 votes in the convention. To combine the two delegations were necessary. Before the convention got to the nomination of Circuit Attorney, a careful canvass of the delegations showed that Carl Otto had something like 123 votes and Clark was hopelessly behind. The delegates to the convention had all been informed of the existence of that page in the court dockets, and not even his personal friends could get him nominated with the hope that they could elect a candidate who had not been convicted of embezzlement, but had not paid society the penalty it demands for law-breaking. When Ed Butler and City Attorney Butler, his son, came around to the convention, they found the time to put Clark on the ticket was frustrated. They then abandoned him, even though they went around among the delegations, reminded them that they had promised to vote for Clark and pretended to acquiesce in the decision that the ticket couldn't stand him. But the ticket couldn't stand him, so the ticket was nominated. He got a preliminary vote, so that Clark would not be bitterly humiliated. Most of the delegates readily promised that. The Butlers then got the wards which they controlled absolutely to vote solidly for Clark. R. W. Goode was nominated, when the convention got to the Circuit Attorney, and the few delegations which cast for him, as well as the right delegation, caused by Husk's peculiar attempt to cast the vote of the Sixteenth Ward for him, prevented the delegates from seeing how Clark was stealing up to Otto and beyond him till the ballot was announced. That nominated Clark. He got 99 votes to Goode's 50. Goode got the voting only 5. So close was the voting, and so fearful the conspirators that they would fail in their effort to give Clark the nomination on the ballot, that they would nominate Otto, that Secretary Barrett, who was in the plot with the Butlers, made a bold bid to rob the eight votes which Otto voted, and count them for Clark by making, in a lone town, the wrong announcement to the Recording Secretaries behind him. But the delegates from the west were not deceived. They then got the correction of the error by a reporter on the stage, the ward would have had its vote counted, but the ballot was ruled invalid, and the ticket failed to explode. Policemen hearing the noise rushed in upon the meeting and were ordered out to keep order. The ticket was directed to the association. During their endeavor to restore order Conrad escaped.

NO CHANGE IN THE SITUATION ON THE BIG FOUR.

COLUMBUS, Oct. 15.—There is no change in the strike situation in the Big Four yards this morning. A large force of police are still in the yard, and no attempt is made by the strikers to interfere with the running of trains. Three men were arrested last night, and the demand of the Big Four switchmen were granted inside of twelve-four hours the switchmen of other roads would go out, no such action has yet been taken.

BIG FOUR SWITCHMEN.

COLUMBUS, Oct. 15.—Frank Bishop, Chairman of the Advisory Committee of the striking switchmen in the Big Four yards, was arrested day by day by Murphy & Dickson's Detective Agency on a charge of having placed a freight car at Mount Carmel, and the police, realizing that the cars are submerged to the depth of a foot. Houses in the lower portions of Leeds and in Fobek and on the north side of the Ayr have been flooded and in many cases their occupants have left them, fearing that they might fall. So severe is the gale that a number of craft at various places along the coast have been dashed to pieces from the waves. Mr. Clark seemed to have been impressed by the arguments Judge Vastine had used. He told the Post-Dispatch representative that the paper would discuss his record if he went off the ticket. He was assured that the paper had nothing to do with his life and he did not appear on a ticket as a candidate. The other commissioners however are little known.

STORM SWEEPED.

THE BRITISH ISLES AT THE MERCY OF THE ELEMENTS.

LONDON, Oct. 15.—The storm that set in over Northern England, Scotland and Wales night before last threatens to cause as much damage as some of the phenomenal gales and rains that passed over the country last autumn. The telegraph lines are down in every direction and communication with some of the coast towns is greatly interrupted. Tidings of disaster continue to be received, and loss of life by shipwreck is beginning to be reported. The fishing yawl James and Robert was capsized yesterday in a heavy swell in the Firth of Forth, Scotland, into which she was pulled to escape many persons were badly bruised. In the mean time the stricken woman was left lying entirely unattended, and it was quite a time before medical assistance reached her, and she was removed to the hospital.

TOBACCO DUTIES RAISED.

BOSTON, Oct. 15.—The Berlin Post in an interest rate on tobacco, the duty on tobacco will be raised from \$5. mark to 15 marks; that the duty on beer will be doubled; that the duty on spirits will be raised from 20 to 55 marks; that the bourse transactions will be taxed 30 per cent and that it is proposed to provide the money required to carry out the military bill, by imposing a tax on home-grown tobacco.

AN OVERDUE STEAMER.

HONG KONG, Oct. 15.—Much alarm is felt in shipping and insurance circles regarding the steamer Bokhara, belonging to the P. & O. Navigation Co., which sailed from Shanghai Oct. 8 with passengers for Hong Kong.

The officials said they supposed the machinery of the Bokhara had broken down during a typhoon in the Chinese sea, and she was proceeding under sail. The steamer Bombay and the British cruiser Porpoise have been dispatched from Hong Kong to search for the Bokhara.

EARTHQUAKE SHOCK.

SOFIA, Oct. 15.—Shocks of earthquake were felt at 7 o'clock this morning at Phillipsburg, Yorkshire, on the River Derwent. It has rained continually for forty hours and the water has risen so high that the banks are submerged to the depth of a foot. Houses in the lower portions of Leeds and in Fobek and on the north side of the Ayr have been flooded and in many cases their occupants have left them, fearing that they might fall. So severe is the gale that a number of craft at various places along the coast have been dashed to pieces from the waves. THE FOUR COURTS combine will go when the Four Courts go.

IS THE BUTLER pull powerful enough to drag the Democratic party to defeat?

THE account of the city Democracy with Ed Butler now includes two indicted can-

candidates.

TWO CRIMINAL indictments make a heavy load for the local Democracy to carry through a campaign.

THERE are no tears in the eyes of "Me and Ed" over the combine's knifing of the city Democratic ticket.

CHICAGO has learned that she cannot insult one statesman and expect others to receive her of consequences.

MRS. BLAINE foretold Harrison's defeat, and it is not likely her husband will do anything to discredit her as a prophetess.

THE candidates for the office of Circuit Attorney are irresistible arguments in favor of the wiping out of the Four Courts.

THE electoral vote of Minnesota will not be cast for Harrison. The State is almost as certainly anti-Republican as is Kentucky.

THE FOUR COURTS combine is just strong enough in both parties to assure the protection of its thieves, thugs and perfumed officials.

INSTEAD of running for Congress in the Eleventh District, Mr. Joy is running from the Republican nomination. He is a bright young man.

THE Democratic and Republican nominations for Circuit Attorney were both made at the same time and in the same Four Courts ring caucus of Hoodlum Push bosses.

IN Illinois the problem is, "How can a man scratch an Australian ballot?" Why not consult the man in the patent medicine advertisement? He "scratched for three years."

SECRETARY FOSTER must have turned pale when he heard of Bussey's "new disabilities." The difficulty of showing that there is still a little money in the Treasury has already aged Mr. Foster very much.

It will be news to most people to hear that the tariff under Garfield was considerably higher than it is now. But this conclusion may be reached if the wool duties are averaged with those on acorns, stars of roses, hot-house plants and balm of Gilead.

SOME writer mentions Bismarck as a statesman of liberal tendencies. If Bismarck has liberal tendencies they have developed since his retirement. A statesman out of a job is very likely to see more clearly than one who is not. Witness our own Ingalls.

THE Republican campaign managers betray lamentable lack of ingenuity in charging the Democrats with attempts to colonize negroes. The enlightenment of the black man has not gone far enough to justify the Democracy in spending any money on him.

MRS. BLAINE's remarks on the large number of Americans who have not acquired their fortunes through the high tariff is a good enough argument against that in-

iquity. It is not hard to prove that a wide-awake American needs no government aid in making his way in the world.

COLONIZING negroes is bad enough, but concentrating the vote of department officials in New York is a little worse. The negroes are not in office and their corruption does not directly affect the Government, but the corruption of department clerks is a serious matter.

ALL hoped-for effect produced by Mr. Blaine's speeches will be nullified by the knowledge that his heart is not in the work. He holds Harrison in contempt and has said repeatedly that the course of the Republican party is both illogical and unpatriotic. But it is not certain yet that he will make any speeches.

CHAUNCEY DEPEW declares that clothes are cheaper here than in England. He ought to know as he buys his there. But isn't it strange that the highly paid laborer in American sweater-shops can put coats on the market cheaper than the degraded paupers of London, and if so why the tariff on coats? But, perhaps, by cheapness Mr. Depew means nastiness. Clothes made of shoddy are apt to be pretty cheap in this sense and they are manufactured in large quantities for poor people unable to order garments from London by cable as Depew does.

MR. MCLEOD has finally admitted that the Coal Trust has advanced the price of anthracite, but says it was necessary to enable the reading to pay dividends on its stock. The public is not interested in Reading finances and is called upon to consider only the reasonableness of the coal prices. But granting the pertinence of Mr. McLeod's plea, what about the capitalization of the Reading? Why should the people be compelled to pay dividends on a valuation two or three times the cost? The more this conspiracy is "defended" the worse it appears.

WHAT Mr. Blaine did not say at White Plains: "Fellow citizens—I heartily recommend to you the present occupant of the White House. He has served you faithfully and has made the country prosperous. An unambitious, sincere, conscientious servant, he has not used his office to bring about his re-election; he has not quartered his relatives upon the government; he has not wasted the revenues of the nation; he has not permitted involuntary contributions to any campaign corruption fund. He is of all men the one who deserves your support and confidence in this trying hour."

REPUBLICANS boast that the defection of men like the Somers brothers and Mr. Grosjean from the Democracy is more than an offset for Gresham, Cooley, McVeagh and Cox. But the Somers hope to make a few million out of the people through the pitiful tax and Grosjean is an iron manufacturer of ironware in receipt of large made profits. It is a hopeful sign for the Democracy when such men go over to the party of privileges and high protection. It shows who are most interested in the triumph and maintenance of class legislation. To support a party because it promises special favors is to discredit it in the eyes of honest men.

OF COURSE all well-regulated postmasters will recognize at once that good Mr. Wanamaker, the proprietor of a hymnal bargain counter, has asked postmasters to send him addresses of citizens. Thus the bargain-counter side of Mr. Wanamaker is defining his Postmaster-General side and the situation would be exceedingly complicated if it were not that the Postmaster-General has put in a saving clause in behalf of the bargain counter proprietor. He states that the rule is made to prevent designing persons from working "fraudulent schemes such as green goods and other swindles."

MR. MCLEOD has ruled that it is improper for postmasters to furnish addresses of citizens to parties asking for them. On the other hand, Mr. Wanamaker, a proprietor of a hymnal bargain counter, has asked postmasters to send him addresses of citizens. Thus the bargain-counter side of Mr. Wanamaker is defining his Postmaster-General side and the situation would be exceedingly complicated if it were not that the Postmaster-General has put in a saving clause in behalf of the bargain counter proprietor. He states that the rule is made to prevent designing persons from working "fraudulent schemes such as green goods and other swindles."

NOMINATE a man who could beat Zachris. We were, therefore, not in the least surprised when the obedient Benjamin later in the day announced that he would not withdraw.

A DESPERATE RESORT.

A pathetic blow was struck at a great man's reputation when Mr. Blaine was forced to make a speech at Candidate Reid's castle.

All that Mr. Blaine could give the hungry Republican managers who have dogged him to the platform was a weak blast of demagogery embodying two assertions of well-known facts and an appeal to prejudice. One assertion was that this country is rich and prosperous, which no one denies. It cannot help but be so. Another was that manufacturers constitute a large part of the wealth-producing industry of the country, which is also denied. The silly inference was then suggested that the tariff makes all of this wealth.

There was no question of the distribution of wealth, which is the vital point, no discussion of the principles of taxation and the laws of distribution and trade.

Mr. Blaine's appeal was an appeal to the passions of Irish-Americans. He sought them to vote for the Republican party on the ground that its policy would injure the interests of Great Britain.

Poor Mr. Blaine, who has been dragged unwilling and weak to the platform to save his party with the hollow mockery of fallen greatness, and poorer still the party which grasps at desperate resorts to avert impending ruin.

Manufacturing Statistics Compiled by the Census Bureau.

PERCENTAGES OF INCREASE IN MILWAUKEE, ST. PAUL AND KANSAS CITY.

Initial Meeting of American Delegates to the Monetary Conference—Treasury Department Decisions—Coffee Product Reports—Data Concerning the Solar Eclipse—Personal and General Gossip.

WASHINGTON, D. C., Oct. 15.—The Census Office yesterday made public bulletin on the statistics of manufacturers in 1890 in the cities of Milwaukee, Kansas City and St. Paul, Minn. The figures for Milwaukee show that 2,867 establishments reported to the census of 1890, representing 174 industries and a capital of \$64,285,000. The number of hands employed was 41,127, to whom \$19,298,000 was paid in wages, \$61,717,457 given as the cost of materials used, and \$91,584,000 as the value of the product. After subtracting from the statistics of 1890 those of main industries which were omitted from the census reports of 1890, the following percentages of increase have been found: Number of establishments reported, 181,64; capital invested, 27.03; number of hands employed, 84.25; wages paid, 181.43; cost of materials used, 73.81; value of product at works, 101.99; population of city, 76.90; assessed valuation of city, 88.75.

As to Kansas City the number of establishments reported in 1890 was 1,473, representing 123 industries and a capital of \$12,708,990. To the 14,692 hands employed \$9,360,325 was paid in wages. The cost of materials used in 1890 was \$16,275,004, and the value of the product \$31,571,059. After making the proper reductions as indicated in the case of Milwaukee, the following percentages of increase for the year 1890 over that of 1890 were given: Number of establishments reported, 49.44; capital invested, 48.61; number of hands employed 454.42; wages paid, 522.94; cost of materials used, 324.25; value of products at works, 376.85; population of city, 137.91.

To St. Paul, the number of establishments reporting in 1890 is given as 1,421, representing 116 industries and an aggregate capital of \$21,488,588. The 17,485 employees received \$9,731,588 in wages. \$15.06,100 is given as the cost of materials used and \$31,088,200 as the value of the product. The percentages of increase are given as follows: Number of establishments reported, 105.66; capital invested, 87.21; number of hands employed, 210.04; wages paid, 185.20; cost of materials used, 133.08; value of product at works, 186.95.

DEPARTMENT AFFAIRS. The American delegates to the International Monetary Congress to be held at Brussels, Nov. 22, have been requested to assemble at Washington, Nov. 10, for the purpose of a conference with the Secretary of State and Secretary of the Treasury with regard to their duties and powers before the Congress. The delegates have arranged to sail from New York on the 12th prox.

Acting Secretary Spaulding has informed the Collector of Customs at Chicago that the Treasury Department has agreed to the plan proposed by the Imperial German Commission that packages containing fragile articles from Germany intended for the Columbian Exposition should be opened only in the presence of representatives of the exhibitors, who should also be required to submit an account of the exhibit.

The department recommends the adoption of the plan proposed in all cases where notice is given of the fragile character of the exhibits.

The Treasury Department has directed that hereafter stitched cotton handkerchiefs be classified as "hemmed" instead of "cotton dutiable at the rate of 35 per cent ad valorem instead of as "hemmed handkerchiefs" dutiable at the rate of 40 per cent ad valorem." This will be effective after a decision by the United States Circuit Court of Appeals for the Second District of New York.

Acting Secretary Spaulding has authorized the entry of the steamship Rossmore at Baltimore, provided she shows the required quarantine certificate. The name list of this vessel includes a large number of American cattle dealers returning from Liverpool.

Postmaster-General Wanamaker has received a communication from the Commerce Service in response to his letter of inquiry of Oct. 12. The commission in reply says that there is no evidence that the letter of James W. Walker has raised the order of the Post-office Department.

"The presence at this office of the blank book rather indicates, we think, the innocence of the Withey Postmaster."

Dr. Morrison of the Nautical Almanac Bureau says that the most important astronomical phenomenon of the year will be the partial solar eclipse on the 20th of this month. If the day be clear the sun will be visible across the continent of North America, except the extreme west of Alaska, and that portion of the continent which lies west of a line drawn from the Gulf of California to the north shore of the Bay of Tehuantepec in southern Mexico. The eclipse can not be total anywhere on the earth. As seen from Washington the eclipse will begin Oct. 20, 11h. 57m. 42s. a. m. (not standard time), with a slight dimness later. A little more than three-fifths of the sun's diameter will be obscured.

The Bureau informs that the production of coffee in Mexico last year exceeded 48,750,000 pounds, a figure which it is thought will soon be tripled to 150,000,000 pounds.

There is an increased number of plantationations during the year 1892 are generally very satisfactory, and a quantity of fibre shipped to New York realized a price equal to that commanded by the Chinese.

Secretary Bush will leave home for Wisconsin to-night. He will stop over in Chicago for a day or so and may deliver a political speech there.

Secretary Charles Foster has returned from New York. He will deliver a political address at Milford Del., this afternoon and expect to come to Washington to-morrow.

Lawyer Burke of Brooklyn has at last prepared a statement, which he says will be filed with the State Department to-day, in which he attempts to prove his case against the Chinese Minister in connection

with the Mittkiewicz affair. This statement is to be published after an interview with Secretary of State Foster, in which the latter is reported as saying that if it could be shown that any American citizen had a just claim against the Minister, the president would take steps to redress the wrongs of the Chinese.

The statement prepared by Mr. Burke is voluminous, but is doubtful if it in any way affects the Chinese Minister. According to Mr. Burke, the Chinese Minister has demanded that the loss, occasioned by the fire, be paid in full. Robert P. Sheppard, ex-Chinese Minister, received \$15,000, taken in exchange an assignment of the Minister's claims against the North River Bank. The Noted Cattle Painter's Works Now on Exhibition at the Art Museum.

The reception and private view of the works of William H. Howe at the Museum of Fine Arts last evening to annual members and members of the press was well attended, despite the inclement weather. Mr. Howe, who has achieved great fame as a cattle painter, is an old St. Louis artist, who is now a resident of Paris. The collection occupies the central gallery and parts of two smaller galleries. The pictures are all draped with maroon. There are fifty-nine studies tastefully grouped in gold and oak and many of the works are mounted on easels.

Twelve finished works are also exhibited in the collection and so are five of Mr. Howe's sash pictures. Of the sash works, one is a study of "Early Morning," exhibited in the salon this year. It possesses most excellent qualities in the way of color, atmosphere and light, morning sunlight.

Another, "Morning," is rather unusual for Mr. Howe, as cattle do not figure in it. The picture is a study of a morning moonlight scene with dunes with reflected light on the distant sea.

"Early Start to Market" contains an excellent representation of the foreground of the market place at the time of the "Return of the Herd," a picture which has been exhibited a great deal, and a "Nor' Bull," a work which belongs to the Museum of Fine Arts.

Another feature of the exhibition is a collection of ten of Howe's works owned by Mr. Daniel Cattin, a fine example of the drawing and painting of cattle and the sunlight effect is well handled. Horses are the specialty in "Morning," and "Low Tide Pleasure," owned by Mrs. Overstolz.

The museum is open free on Sunday afternoons, and will be open to the public on Tuesday evenings while Mr. Howe's pictures are on exhibition.

### AT THE EXPOSITION THIS EVENING.

It Will Be Everybody's Night and Every body Will Be There.

To-night is to be everybody's night at the Exposition, there being no fixed programme for any particular society or association.

The Young People's Society of Christian Endeavor have signified their intention of attending in a body, but this does not make it the less an open night when all comers are welcome. Monday night will be the Gilmore Memorial night, and on that occasion the admirers of the dead band master will hear only such pieces as the great leader admired the most and best loved to hear. His peers will perform.

The wheelmen and their friends took possession of the big building last night, and notwithstanding they brought a heavy rain with them made a most presentable showing.

Delegations from all the prominent cycling clubs in the city were present and knickerbocker caps were the rage of the evening. Supt. Freudenvold did not forget his duty on the occasion and the concert programme had several numbers appropriate to the subject of the wheelmen's life, which were heartily enjoyed by the boys.

It is not probable that the newly elected leader of the band, Mr. E. H. Miller, will hold the baton on the Music Hall stage this season. Sergt. Freudenvold will announce the receipt of a telegram from the band leaders to the effect that he will be entirely suspended, and every one attending him who has hitherto been honored with a pass pay his or her way for "sweet charity's sake." The band leaders' demands are to be paid to three or four of the leading charitable institutions of the city.

The properly worked up it was the opinion of the gentlemen advocating it last night that an immense number would be induced to visit the Exposition on that occasion simply for the purpose of contributing to so laudable an object.

The department recommends the adoption of the plan proposed in all cases where notice is given of the fragile character of the exhibits.

The programme for this evening will be as follows:

7 O'CLOCK—"Le Roi D'Yester"; Adam Retired; Solo for Flute; "The Hounds"; Snider.

Mr. F. W. Wadsworth; "Der Freischütz"; Schumann.

March—"Brand Guards"; Meyerbeer.

Overture—"Romilda e Cunizza"; Donizetti Quartet for Trombones—"Hush-a-bye"; Canning.

(By request) Messrs. Clarke, Miller, Meinwinkel.

Program—Reminiscences of Meyerbeer; Introducing gems from "Les Huguenots"; "Le Prophète"; "Dioniso"; and other operas.

Church Hymn—"Wear My God to Thee"; Mason March—"Hark! The Bands Pass"; Hartorff.

Notes.

Down-town Depot for Nadia Caramels, Broadway Importing Co., 210 N. Broadway.

The press in the basement of which the Post-masters' rooms is located is one of the great attractions of the big show.

A modern perfecting newspaper press is a marvel of mechanism and people are interested in watching it work.

At the request of the parishioners of St. Malachy's Church, Mr. W. E. Bates will play for offertory the "Innumatius" from Rossini's "She St. Midas," during high mass every morning.

Mr. Bates is a concert soloist of Gilmore's one hundred and has frequently been called upon in the East to play his selection in the great theaters.

To-night evening he will play at the Central Christian Church on Finney avenue.

Half Rates to All—  
Foreign States.

Oct. 25 the Iron Mountain route will sell tickets at half rates to all points in the Southwest. Tickets good for twenty days, with the privilege of stopping off to inspect lands. Ticket offices northwest corner Broadway and Union street and Union Depot.

To Organize a Spanish Band.

Senor Jose Gonzalez, the Spanish concert soloist late of Gilmore's band and at present member of the Hagan Opera-house orchestra, has been authorized by the Queen of Spain to organize a band of sixty pieces for Spanish exhibit at the World's Columbian Exposition. The organization which he is now forming will be known as Gonzalez' Spanish National Band. Gonzalez has applied to the Spanish Government for permission to organize the band some time ago and was readily granted the privilege.

He is at present engaged in the preparation of some wealthy Spanish residents of this country to his scheme. The senior is one of the most noted Spanish musicians in the United States. He was born in Havana, Cuba, and received his musical education at the Paris Conservatory of Music and when he graduated was awarded first prizes as a concert soloist.
